WEA-capable phones

- As advanced WEA features are deployed by government agencies, they will become more widely available.
- Although these devices have been tested for their WEA functionality, actual WEA messages may not include advanced features where they are not enabled or deployed by the government agency sending the alert.
- Other devices that have not been tested by T-Mobile and / or Metro by T-Mobile for WEA compatibility may be capable of receiving WEA messages, including some or all advanced WEA features.
- Some T-Mobile and / or Metro by T-Mobile devices may require a software update to enable advanced WEA functionality. Make sure to download the software updates sent to your device.
- Some of the older devices on this list have not been tested by T-Mobile and / or Metro by T-Mobile for advanced WEA functionality, but may support some of these advanced capabilities.
- Device manufacturers have implemented Alert Preservation in various ways, including preserving a copy of the alert in the device's WEA application, messaging application, or notification center, unless deleted by the user. Please consult your device's user documentation for additional detail.
- Enhanced Geo-Targeting requires permission to use your device's location settings. Make sure you have enabled location settings for Enhanced Geo-Targeting. Please consult your device's user documentation for additional details.
